

42. (Amended) The method as set forth in claim 41, wherein said glycerolipid is derived from tea, mushrooms, algae or cereal residues.

43. (Amended) The method as set forth in claim 41, wherein said glycerolipid is extracted from plants, microorganisms or animals with an organic solvent.

44. (Amended) The method as set forth in claim 43, wherein said glycerolipid is treated with an acid or an alkali prior to extraction.

45. (Amended) The method as set forth in claim 43, wherein said glycerolipid is purified by hydrophobic, reversed phase, or normal phase chromatography.

46. (Amended) The method as set forth in claim 43, wherein said glycerolipid is extracted from tea, mushrooms, algae or cereal residues.

47. (Amended) The method as set forth in claim 40, wherein said glycerolipid consists of fatty acid and glycerol.

REMARKS

Favorable reconsideration is respectfully requested in view of the foregoing amendments and following remarks.
